ANIMATION // ILLUSTRATION // INTERACTIVE

PMAXWELLWARD.COM // PMAXWELLWARD@GMAIL.COM

Greetings,

Do you remember the first time you created something, whether it's a drawing, an animation, or even something you wrote, and were surprised by it?

Maybe what you made was an improvement from previous attempts, or maybe the idea came so quickly and mysteriously that it felt strange taking ownership of it, but you proudly did.

I've been a professional animator for 6+ years, and I'm always trying to surprise myself. I've worked alone and with big and small teams as a director, animator, lead designer, writer, and most roles typical of an animation production. The majority of my experience is in television and web as an animation director.

Here are the highlights of my relevant skills and experience:

- Worked as a senior animator on several projects supervising junior artists.
- Wrote, directed, and animated ProMax and Addy award winning promotions
- Created and managed on-air broadcast graphics for local television stations
- Expert Proficiency with the Adobe Creative Suite and Blender.
- Adaptable to new technologies, third party plugins, and web/mobile app development

Please look at my attached resume and visit my website for further details.

Thank you for your consideration,

Truly,

P. Maxwell Ward
